It takes skill, conditioning, mental toughness, and determination to excel at any sport. Tennis provides rich physical, emotional and intellectual benefits, and ACE Tennis Camps take every step possible to accelerate a child's love for tennis in a way that's both educational and enjoyable.

Campers get personal attention from instructors in learning a variety of tennis skills, strategies, and drills as well as techniques for conditioning, mental toughness and strength training. ACE Tennis Camps offer a variety of instructional programs to best meet the needs of every camper.

## HOW CAMP WORKS

Upon arrival, campers are evaluated on-court and placed in one of three instructional programs.

**ACE I *Middle School - learning the game, starting to compete:*** Campers get the basics of match play and an understanding of fundamentals as well as concentrating on building good strokes and habits.

**ACE II *High School - for players who aspire to make their high school team or move up the ladder:*** Giving the player the best possible chance to succeed is a priority. Emphasis on improving the quality of match play, improving strokes, and building confidence. Singles and doubles strategies and tactics are covered, as well as mental toughness and physical conditioning.

**ACE III *Tournament Players - juniors seeking better tournament results as well as elite high school players:*** Players are given advanced drills, strategies, and physical training to further their match success. Strokes are fine tuned and built into powerful and consistent weapons.
